

Kathy Close Memorial Diabetes Education Fund

Kathy Close was a wife, mother, daughter, friend, and a dedicated educator. She was a gifted elementary school teacher for over 30 years and was always willing to share this talent. Although she was taken from us far too early, her legacy lives on. Please help us educate and empower people with diabetes with your donation to the *Kathy Close Memorial Diabetes Education Fund*.

Funds are used for the continued development of this website and provision of diabetes self-management programs that increase access to accurate and understandable information about diabetes.

Please read *Kathy's story* on our website for a glimpse into her vibrant life and unique diabetes experience.
